

Announcement

Ulrich Schaefer (Bosch) Elected as Chairman of the Executive Committee

Release Date: 13 May 2008

On 13 May 2008 Dr. Ulrich Schaefer was elected by the WSTS Committee as Chairman of the WSTS Executive Committee. The tenure of the Chairman is 18 months.

Here is a brief career history of the Chairman.

Ulrich Schaefer joined Robert Bosch GmbH in October 1981 and works for this company ever since.

1975 to 1981	Basic research on Elementary Particle Physics at the University of Bonn, Germany
1981 to 1986	Responsible for the manufacturing of thick-film hybrids, development and release of technologies and materials for hybrid manufacturing
1986 to 1989	Development of thick-film hybrid technologies
1989 to 1995	Construction and layout of electronic control units for automotive applications
Since 1995	Market research and technological analyses of semiconductors, representative to semiconductor industry associations

Ulrich Schaefer served before on the WSTS Board of Directors and as European vice chairman from October 2000 to May 2005 and has actively participated in all worldwide and European regional WSTS meetings.
