WSTS Semiconductor Industry Forecast

WSTS issues twice a year the Semiconductor Industry Forecast. During the so called "Forecast Meetings", each year taking place in May and November, market research experts of WSTS member companies join their knowledge base to develop the forecast.

Forecast Schedule

Forecast Edition	Release Date
Spring FC 2026 Q2 update	3rd Aug 2026
Autumn FC 2026	1st Dec 2026
Autumn FC 2026 Q4 update	2nd March 2027
Spring FC 2027	June 2027*

* Future release dates are tentative and may still change.

Availability of the WSTS Forecast

Semiconductor industry forecasts are issued by WSTS to all member companies. A condensed version displaying top level products is available to the general public ("Press"). Forecasts with full details may also be obtained from WSTS' licensed distributors (see "Subscription" for more details).

WSTS member companies may download the most recent forecast from the Top-Menu "Members Only", Submenu "Forecast". From the same location quarterly forecast updates may be downloaded. Older forecasts are in the "Archives" section, submenu "Forecast".
