

WSTS Semiconductor Industry Forecast

WSTS issues twice a year the Semiconductor Industry Forecast. During the so called "Forecast Meetings", each year taking place in May and November, market research experts of WSTS member companies join their knowledge base to develop the forecast.

Forecast Schedule

Forecast Edition	Release Date
Autumn 2025	2nd December 2025
Spring 2026	June 2026*
Autumn 2026	December 2026*
Spring 2027	June 2027*

* Future release dates are tentative and may still change.

Availability of the WSTS Forecast

Semiconductor industry forecasts are issued by WSTS to all member companies. A condensed version displaying top level products is available to the general public ("Press"). Forecasts with full details may also be obtained from WSTS' licensed distributors (see "Subscription" for more details).

WSTS member companies may download the most recent forecast from the Top-Menu "Members Only", Submenu "Forecast". From the same location quarterly forecast updates may be downloaded. Older forecasts are in the "Archives" section, submenu "Forecast".
