Registration for Access to the Internet Portal Part 4 of 4

On-Line Registration Form

The link below will finally lead you to the On-Line Registration Form.

If you do not see your employer in the field "Company Name", you cannot perform online registration. WSTS will charge a fine of US$1000 to any person that applied for and obtained a user registration by fraudulent pretense (this is for instance the case if you select a company of which you are not an employee).

After you submitted your registration data you may be requested to supply other supporting evidence, if your email address and/or your IP address don't clearly identify you as an employee of an authorized organization. Registration requests from persons not being identifiable as employees of an authorized organization will be discarded and no further message by WSTS will be returned to the applicant.

I have read and understood the above and I am ready to fill in the On-Line Registration Form.

I wish to refrain from on-line registration.
