WSTS

WSTS' mission is to be the respected source of the semiconductor market data and forecasts.

WSTS Inc. is a non-profit mutual benefit corporation whose Charter and Bylaws define services for the world semiconductor industry, including management of the collection and publication of trade net shipments and semiconductor industry forecasts. WSTS' headquarters are incorporated and located in USA, California, Morgan Hill (near San Jose). WSTS' operational center is located in Woerth (near Munich), Germany.

WSTS is primarily funded by membership fees of participating semiconductor companies, whose representatives form the WSTS Committee. The members of this Committee submit accurate and authentic monthly revenue data, attend regional meetings and contribute to the generation of world semiconductor industry forecasts.

WSTS monthly data collection is unique regarding frequency, accuracy, details and market coverage. WSTS forecasts are the only ones based on the collective experience and market intelligence of a major part of the entire semiconductor industry.
